

ENERGY SAVINGS ASSISTANCE PROGRAM

HOME ENERGY EFFICIENCY IMPROVEMENTS AT NO COST TO YOU

As a proud contractor of the Energy Savings Assistance Program, Staples Energy can help identify inefficiencies in your home and provide no-cost improvements to help make it more energy efficient, safe and comfortable.

AVAILABLE FOR QUALIFYING HOUSEHOLDS:

Changes to the program are making more households than ever qualify for these improvements. At a minimum, your house, apartment or mobile home must be at least five years old.

COMMON IMPROVEMENTS MAY INCLUDE

New appliances to replace your old, inefficient refrigerator, furnace or water heater*

Insulation and weatherproofing services to keep your home cooler in the summer and warmer in the winter

Select LED lighting**

WORK WITH STAPLES ENERGY, AN AUTHORIZED CONTRACTOR

Once you qualify, Staples Energy will:

1. Assess your home's energy efficiency
2. Install customized home improvements
3. Repair or replace appliances, if qualified
4. Perform a post-installation inspection, if needed

BOTH RENTERS AND OWNERS ARE ELIGIBLE.

Energy Savings Assistance ProgramSM

* Furnace and water heater repair or replacement may be available to eligible homeowners if it's determined that existing natural gas units are inoperable or unsafe.

** ENERGY STAR® Advanced LED light bulbs that use up to 80 percent less energy than traditional light bulbs.
